

Play Sportz

Play Sportz is pre-school activity classes for the under 5's using sport as a means to teach special awareness, agility, balance, coordination, listening and social skills, through different sports including football, hand ball & games. These sports classes for toddlers are designed to help co-ordination, agility, balance and spatial awareness. Listening skills and team work are also essential to help develop the young champions in becoming independent and confident within a structured environment for the under 5's. Play and games are at the heart of everything we do and our games cleverly disguise the learning aspect so the children just think they are playing.
