

## Education Otherwise

Though education is compulsory in the UK for children between the ages of five and sixteen, school is not. Many families prefer to educate their children otherwise than at school, and it is their right under UK law to do so. Home educating families do not have to follow the National Curriculum and there is no single 'right' way to educate a child at home. This site provides information and resources for home educating families and those considering home education for the first time, including guidance on home education and the law, SEN and disabilities; downloadable fact sheets covering many aspects of HE; and links to local HE groups across the UK.
