

The Lullaby Trust

Safer sleep from babies, support for families. Confidential support for those affected by the sudden and unexpected death of a baby. The Lullaby Trust provides specialist support for bereaved families, promotes expert advice on safer baby sleep and raises awareness on sudden infant death. Working with the NHS we run a national health-visitor led service for bereaved parents, Care of Next Infant (CONI) programme, which supports families before and after the birth of their new baby. We also fund the specialist monitoring equipment for CONI babies, which provides much-needed reassurance for anxious parents. The Lullaby Trust has been funding cutting-edge research into sudden and unexpected death of babies and young children since 1971.
