

Herons View Care Farm

Set on a 10 acre smallholding, Herons View Care Farm is a day care and respite facility for young people and adults with a learning disability. Offering a small scale service over 7 days a week to those looking for a predominantly outdoor environment. The day respite service offers the same fun safe activities as the day service. Activities include animal care, horticulture, arts and crafts, wildlife activities, IT skills, work and life skills and country crafts. Animals currently on the farm are: chickens, ducks, guinea pigs, pygmy goats, alpaca, horse and ponies and the farm cats and dog. The service is developed for each individual by supporting their interests and promoting their strengths, so allowing each person to develop practical and interpersonal skills in a friendly environment. Please visit our website for further information.
