

Access Dorset

Access Dorset is a user led organisation and registered charity, run by disabled people, older people and carers. Our activities, guidance and support are geared to supporting people to identify and overcome barriers to independence and social inclusion. We encourage self-help strategies and nurture peer support approaches to enable, empower and build self-resilience. We want to bridge the gap that young disabled people experience in transition to adulthood, between unemployment and employment and between ill-health and self-management of health conditions. We work to remove barriers to inclusion. Visit website or get in touch to find out more about what our key services include and how we can help you.
