

Bovington Tank Museum

At the tank museum we bring the history of tanks and tank crew to life. Our exhibitions tell the story of armoured warfare spanning almost a century of history. As you explore the Museum's six large halls, you will come face to face with tanks that have seen action in all the major conflicts of the 20th Century. This unique collection of over 300 vehicles is regarded as the best in the world and includes the world's first ever tank - Little Willie, the feared German Tiger tank and the modern Challenger 2. The Tank Museum holds the finest and most historically significant collection of fighting armour in the world.
